

# HW 2000-SC

## Large Capacity DFS Air Purification System

The Global Leader in Air Quality Solutions

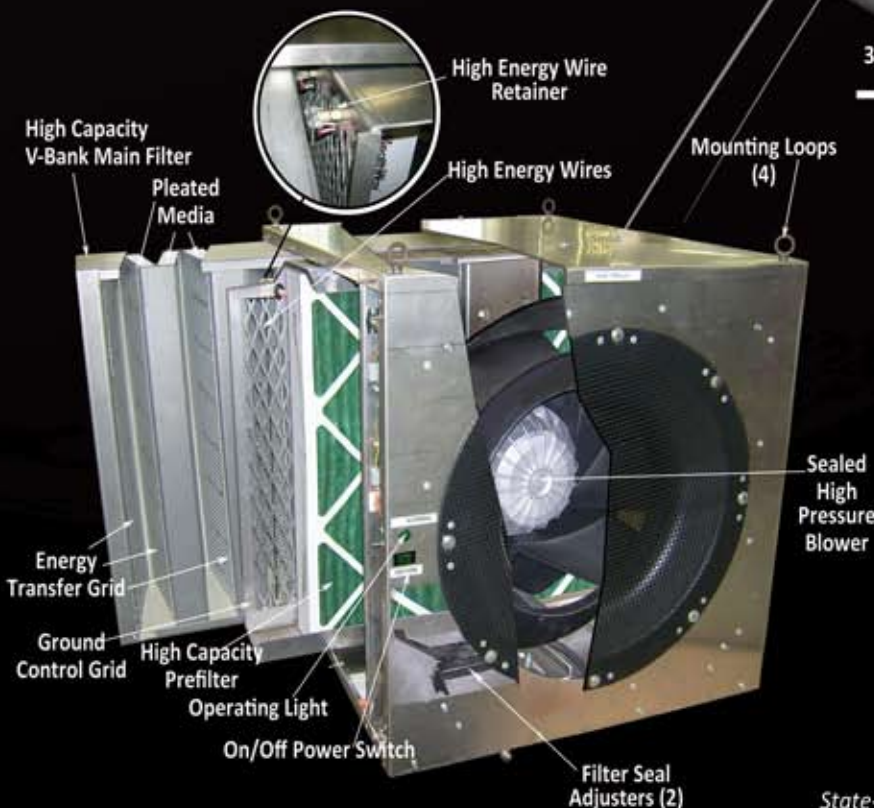

### HW 2000-SC DFS Specifications

- Large Capacity/Low Energy - Delivers high CFM with low energy consumption
- Independent Low Velocity/Distribution control - Supply where needed - higher effectiveness
- Quicker Filter Changes Done Outside of Room - No contamination during filter changes
- Quiet Operation - Allows for clean air delivery in a room quietly
- Inhibits Bacterial Growth - Lower Bioburden in Medical Rooms
- Enable 99% System Filtration Efficiency - Based on install of Fresh Air Intake of Air Handler
- Ultra Low Energy Consumption - Lowest pressure drop in the industry
- Lower Maintenance Cost - Three times longer life than conventional HEPA's

### DFS 2000-SC (Self-Contained) Power Requirements Per System

50/60Hz	50/60Hz	50/60Hz	50/60Hz
2000SC-120-1AL	2000SC-220-1AL	2000SC-220-3AL	2000SC-440-3AL
2.5A/1.85A	3.5A/2.75A	4.5A/3.5A	2.8A/2.4A
300W/222W	770W/605W	990W/770W	1232W/1056W

### MODEL 2000-SC Single Module Dimensions:

Height	Width	Depth
26 1/8"	32 1/8"	26 1/4"
664mm	816mm	667mm

Weight: 153 lbs. 69.3 kg  
 Shipping Weight: 220 Lbs. 100 kg (carton & skid)

HealthWay's DFS Technology (Disinfecting Filtration System) surpasses all other types of filtration. This revolutionary high energy field ("germ killing zone") actually breaks through the DNA of viruses, bacteria, mold and fungi, trapping and killing them once and for all. Tested by independent laboratories.

HealthWay has over 30 years of clean air industry experience-no wonder we are the best!

State-of-the-Art-Manufacturing ISO 9001 Certified
